

CPSC 1045 Worksheet 9: Objects

- 1) What is a literal object?
- 2) What is a constructor?
- 3) Explain the keyword **this**.
- 4) How can you store an object in an Array?
- 5) Write a constructor for the following object:

Property	Description
Name	Name of the pet.
Species	Species of the pet(eg. cat, dog)
Breed	Breed of the pet
Allergies	List of allergies for the pet

Note: For lists, or things that are stored in arrays you need to copy the array.
